**Food Security and Climate Resilient Agriculture  
Consultancy Services for the  
Development and Strengthening of Village Savings and Lending Associations (VSLAs)  
and Support Linkages for Inclusive Access to Finance Models among Smallholder  
Farmers**

**under SNV Tanzania's NOURISH Project**

- Do you have experience in agriculture and value chain development?
- Does your firm have expertise in working with Village Savings and Lending Associations (VSLAs)?
- Does your firm/organization possess strong project management systems?
- Does your firm have knowledge and experience in implementing and linking communities to digital platforms?

**If yes, this opportunity is for you.**

SNV Tanzania is working under a consortium to implement a five-year Nutrition security and Climate Resilience project "NOURISH", which focuses on empowering smallholder farmer to achieve resilient food security and improve nutrition in the five target regions of Tanzania. The purpose of this consultancy is to support SNV Tanzania and partners through provision of technical services to facilitate the development of sustainable Village Saving and Lending Associations (VSLAs) among the smallholder farmers in five regions of the project through identification of existing groups, mobilization of new groups, training and structuring of the groups to adopt recommended sustainable proven model that will address the challenges among the households.
